CONTINENTAL LEASING COMPANY, INC.

SHORT TERM RENTALS

TERMS & CONDITIONS

PAYMENT TERMS:	Net — Payable upon receipt of invoice.
FOB POINT:	Arlington, Massachusetts
SHIPMENT:	Unless otherwise specified by renter, shipment to local areas will be made UPS or truck and shipment to distant points via Air Freight.
RENTAL PERIOD:	One month minimum. Rental period extends from date of shipment to date of return receipt at CLC.
PRIOR RENTAL:	All rentals are subject to prior rental.
LIABILITY:	In event of loss or damage, the renter is liable for repair or replacement. Repairs are to be performed by a service facility approved by CLC and will be made by original equipment manufacturer (or authorized representative) unless otherwise agreed upon. The renter is encouraged to cover rented equipment with appropriate insurance.
PRICES:	Subject to change without notice.
WARRANTEE:	All equipment shipped by CLC is guaranteed to be operating within original manufacturers specifications. If equipment returned to CLC shows evidence of misuse, repairs resulting from such misuse will be billed to renter (see liability). If renter is not familiar with operation of this equipment it is recommended that he contact CLC for instruction.

MAKE OUT YOUR PO TO:

CONTINENTAL LEASING CO., INC.
30 PARK AVENUE
ARLINGTON, MASSACHUSETTS

WHY RENT

Reasons for the popularity of the Short Term Rental are obvious. Only through rental can the advantages of modern instrumentation be realized for the short project. Only through rental can state-of the art instruments be economically obtained on short notice for immediate use.

Although 50 Oscilloscopes may be owned by a busy factory they all may be committed when an urgent, short term need arises. Rather than expend additional capital funds for doubtful long term gain, the wise company will find the short term rental the best alternative.

The special test program is another natural application for the short term rental. Specialized equipment may be required while the justification for permanent possession is lacking. Here, once again, renting provides the answer.

Many companys engaged in specialized testing for the U.S. Government will find their customer ready and willing to finance specialized equipment rental while funds for purchase may be denied. The U.S. Government itself is a prime user of rented equipment — especially where proof of the feasibility of a measurement technique is desireable before large funding is risked.

30 PARK AVENUE, ARLINGTON, MASSACHUSETTS 02174 (617) 648-8620

QUALITY ASSURANCE

All equipment furnished by CLC is in perfect operating condition. In most cases original manufacturers warrantee still hold. In all cases the instruments are subjected to a thorough preventative maintenance and calibration program. CLC has employed one of the finest repair and calibration facilities in the nation to assure service of the highest calibre. Each instrument is processed in this manner at the termination of every rental period! Prior to shipment each instrument is rechecked to assure proper operation, instruction manuals and crating.

CONTINENTAL LEASING COMPANY, INC.

The prospective renter is invited to visit our facility and see for himself the care taken to assure the proper operation of his instrument. If the renter is unskilled in the operation of the equipment it is recommended that he request instruction from a CLC engineer. Purchase options are available on some equipments. If you wish to purchase any equipment on the following pages — contact CLC.
